The restriction requirement, as set forth above and on pages 2-4 of the Office Action, is respectfully traversed. However, to be fully responsive to the restriction requirement, Applicants elect with traverse, the subject matter of Group I, claims 24, 34-37, 49, 74, and 75.

Applicants respectfully traverse the restriction requirement for at least the reason that the Office has not shown there to be a serious burden to examine the entirety of the subject matter together. The guidelines for restriction practice are explicitly clear. In order for a restriction requirement to be proper, "[t]here must be a serious burden on the examiner...." M.P.E.P. § 803. Thus, although the Office has argued that the inventions are distinct, this is not a sufficient basis by itself to support a restriction requirement. Applicants respectfully submit that there is no serious burden to continue to examine all the claims together without a restriction requirement.

In view of the foregoing remarks, Applicants respectfully submit that the restriction requirement is in error and request that the requirement be withdrawn.

Please grant any extensions of time required to enter this response and  
charge any additional required fees to our Deposit Account No. 06-0916.

Respectfully submitted,
